As of 1 January 2015, the Transformed Fund (TF) managed by KB Penzijní společnost, which gathers the funds of supplementary pension insurance with government contribution, was deconsolidated from the consolidating group of Komerční banka. The fund continues to be administrated by KB Penzijní společnost, a fully owned subsidiary of Komerční banka, whose own consolidation has not changed.

The deconsolidation of TF follows approval of a pertinent change in the Statutes of TF by CNB with effective date 1 January 2015. That change limits the discretion of KB Penzijní společnost for investments in variable income instruments (such as equity, real estate, etc.) Therefore, the probability of triggering the generic legal guarantee of KB with regard to potential negative annual yield of TF has been reduced. The three elements of control which must be met according to IFRS 10 in order to consolidate an entity in the parent's financial statements were not proven from that date.
