

SERVICE DEFINITION

The "Branches and ATMs" service provides information on all branches and ATMs of the KB, including addresses, GPS locations, opening hours and other interesting information.

WHAT IS IT GOOD FOR?

Do you need to know where all KB ATMs are or when and where can users of our applications visit KB branches?

Using the service, you can:

- search for the closest KB ATM / KB branch
- search for KB ATM / KB branch using an address or GPS location
- get information about branches equipped with Wi-Fi, branches for foreign customers or branches providing cash and currency exchange services
- get information about deposit ATMs, ATMs allowing you to specify sets of withdrawn banknotes, ATMs / branches with wheelchair access

WHAT INFORMATION IS PROVIDED?

Branches:

Address	GPS Location	Opening hours	Contact information
WI-FI Connection	Currency exchange services	Accessibility	Cash amount limit

ATMs:

Address	GPS Location	Operation time	ATM Type (deposit / withdrawal)
Lowest banknote value	Possibility to specify a set of banknotes	Accessibility	

PRODUCTION REQUIREMENTS

The Branches and ATMs service is a public-access API. The only condition is registration at <https://www.kb.cz/en/api>.

HOW DOES IT WORK?

After registering at the API Portal, you can simply link your application with the Branches and ATMs service and generate an API call key (for more information, see the Help section of the API Portal, which is available at the website <https://www.kb.cz/en/api>).
